Education

B.Tech in Computer Science (Specialization in Cybersecurity) 2023 – 2027 (Expected)
GITAM University, Visakhapatnam

12th Grade 2021 – 2023
Narayana Junior College, Visakhapatnam

10th Grade Completed 2021
Ravindra Bharathi School, Visakhapatnam

Skills

Programming & Scripting: Python, Java, Bash, SQL
Technologies: Cybersecurity Practices, Frameworks (ISO 27001, NIST, PCI, SOC), Cloud Platforms (AWS, Azure, GCP), AI/LLMs, APIs
Tools & Platforms: Git, Docker, Security Tools (DLP, Email Security, Active Directory, SIEM), GRC Tools
Soft Skills: Analytical Thinking, Communication, Teamwork

Experience

Cybersecurity Intern Remote
Intrainz March 2024 – May 2024

- Conducted risk assessments and documented security controls, assisting in compliance with standards like ISO 27001 and NIST.
- Automated evidence collection and monitoring using scripting in Python and Bash, streamlining GRC reporting and remediation tracking.
- Collaborated with teams to integrate security tools into workflows, enhancing threat detection and compliance monitoring.

Technical Lead Remote
CHITTI September 2024 – Present

- Assisted in developing security policies and procedures, ensuring compliance with industry standards and integrating GRC practices.
- Used automation scripts for monitoring and reporting KPIs/KRIs, supporting risk management and audit preparations.
- Worked with engineering teams to embed security controls from project inception, promoting secure development and compliance.

Web Designer and Developer Remote
Young Compete May 2024 – Dec 2024

- Implemented security controls and protocols in web applications, including DLP and email security integrations for data protection.
- Supported incident management and business continuity efforts through automated monitoring and response scripts.

Certifications

-
- ISC2 Systems Security Certified Practitioner (SSCP)
 - Cybersecurity Essentials, Cisco
 - Introduction to Cybersecurity, Linux Foundation

Achievements

- Found critical vulnerability in university site and reported to university; this vulnerability led to student data leakage.
- 1st Runner-Up – Technovate (India Student Conclave by Times of India) winning 40,000 prize money
- Achieved 2nd place in a coding competition, earning 5,000 prize money for a secure transaction system.
- Recognized as Top Performer of 2024 at Young Compete for outstanding contributions to web development.

Projects

Secure Transaction System using Face Detection

- Developed a secure system with risk assessments and compliance checks, using AI for authentication and integrating security frameworks.

Decentralized Voting System

- Built a compliant voting system with blockchain security, performing gap analyses against standards and tracking remediation.

Patient Health Monitor using Wireless RF

- Designed a health monitoring system with security controls, disaster recovery planning, and compliance with data protection standards.
